Animal Care Services
PIO Report-March 2011*
4-11-11

Cockfight bust- Animal Care Services received widespread media coverage concerning a cockfight bust the department was involved in. Close to 50 of the fighting birds were brought into the shelter from the enforcement action. Media coverage focused on the illegality of the blood sport and the plight of the roosters themselves.

Open Records Requests-Animal Care Services has received more 30 plus Open Records Requests since the last advisory board meeting. ACS is guided by state law in fulfilling these requests which often take a number of days to compile within the department's divisions. Requests are generally sent to the ORR division of the Communications and Public Affairs department which assists ACS in managing the large volume of requests.

Express News SSAS profile-The Express News article on the Southside Auxiliary shelter at Brooks City Base was published with several picture sof staff and animals. The article was balanced and the department is working with the reporter on several additional story ideas.

Military videographer project-The department's project with two Air Force journalists donating their expertise has started with a piece concerning the importance of spay neuter. The video piece will be accompanied by additional material-possibly a poster. The video should be completed by the end of the month with additional topics to be covered in May.

Animal Care Services generated (24) media stories since the last advisory board meeting March 16, 2011. (8) News releases were issued to local media outlets.

*PIO reports include events/information during the time period between advisory board meetings up to the time of this report's creation.

REPORT ON CLINIC AND MEDICAL ADMINISTRATION of AMY

Serious allegations were made at the last ACSAB meeting concerning medical treatment of injured or sick animals in the stray kennels. After several visits to ACS and review of policies instituted by stray kennel managers Jimmy LeMaster and Amy Collin, I feel that these allegations are false.

Jimmy pulls all medical, adoption, and EBI reports at 8 AM then takes them to each run and inspects each of the animals. Then he inspects animals that came in overnight to evaluate them for injuries and disposition. Veterinary staff are notified if there is an animal that needs their attention. This done by 9 AM at the latest, and most times this is done by 8:30 AM. By 9 AM any animal that needs to see a vet or needs continued medication has been serviced.

Amy Collin has a similar system that I prefer. She prints a master list of all animals in the kennel, then color codes each animal that is due for adoption, adoption hold, medication, or any other special attention. Then she inspects every animal, especially new arrivals to evaluate their health and compatibility. Once again, any new arrival needing medical care is seen by a vet by 9 AM at the latest. Medication begins at this point.

I have enclosed one of Amy's master lists to illustrate her system for the board members.

I do not see how, with the level of diligence and dedication that stray animals are being neglected at ACS..

FACS Report to Board for April 20, 2011

Advocacy and fund raising continue to be the focus for the Friends of Animal Care Services.

Briefing of current and potential future City Council members is underway regarding the facts concerning homeless animals both in their districts and in the city and county.

Fund raising continues to focus on (a) spay/neuter and outreach programs and (b) potential contributions of capital support for the Brackenridge facility (pending final cost estimates and resulting construction priorities).

II. REDUCE THE NUMBER OF STRAYS/HOMELESS ANIMALS

Spay/Neuter

Here are the number of spay/neuter surgeries performed in March 2011 and fiscal YTD through March.

In all high-volume clinics in March 2011, we sterilized 5,163 animals, 1,081 more than the previous month and 1,082 more than the same month last year. They have sterilized 25,560 animals FYTD, which is a 24% increase over last year.

Notes:

1. Intake and all Live Release factors in March were up from February and higher than the monthly averages for FY 2011.
 - a. The number of transfers to rescue was the highest this fiscal year.
 - b. The number of returns to owner was the highest recorded since July 2008.
 - c. The total number of Live Releases set a new high since July 2008!
2. Even though Intake FYTD is much higher in 2011 vs. 2010, the Live Release Rate is higher and the Euthanasia rate is lower than in 2010.
3. These numbers come from the Kennel Statistics reports. I will use Asilomar reports when I have all of the monthly history from FY 2010 in Asilomar format. The numbers are different due to backing out the number of unhealthy/untreatable dogs and cats that citizens brought in to be euthanized; and, as a result, the Live Release Rate is a little higher than reported here and the Euthanasia Rate is a little lower.
